Nottingham, UK

ABOUT

Programming has always been a passion of mine and while university helped me develop that passion further, I'm excited for the next step, to truly put that to use. I am looking for an opportunity to contribute towards a company that shares this same passion for technology, software, and programming, whilst allowing me to develop and broaden my scope of knowledge within the software development sector.

EDUCATION

MSc Computer Systems, Nottingham Trent University
Not Yet Completed | 2021 – 2022

BSc Computing, Nottingham Trent University
2:1 BSc (Hons) | 2018 – 2021

EXPERIENCE

Bartender, Greene King
2020 – 2022

Working at Green King, provided me with my first interaction and experience with customers. As a bartender, communication, teamwork, collaboration, and leadership were all essential, leading to these skills being enhanced during the time working there. This impact allowed me to start my professional development career with a strong emphasis on collaboration and personal skills.

Mentor & Classroom Assistant, NTU(CERT)
2019 - 2021

Helping to teach others programming through one-on-one sessions and assisting with classroom teaching helped to increase my own efficiency in software development, enhance my teamwork proficiency and critical thinking skills. This role also required a large amount of communication and interpersonal skills, with some of the issues brought to the conversation being of a personal nature.
